Class Rank/Marking System

All courses excluding Physical Education are used in determining class rank. Class rank is determined through a weighting system whose values are given below in the Course Offerings section. An A+ in a heterogeneous course is equal to a 4.3 on a 4.0 scale. An A+ in an honors course is equal to a 4.8 on a 4.0 scale. An A+ in an AP/UCONN ECE course is equal to a 5.3 on a 4.0 scale. The sum of the weighted grades is then divided by the sum of the attempted credits to arrive at class rank. Class rank is recalculated at the end of the year.
